Forward Looking Statements

Statements in this release that are not historical are forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. Significant risks and uncertainties may relate to, but are not limited to, the risk that the Cristal Transaction does not close due to failure of a closing condition or termination of the Cristal Transaction Agreement in accordance with its terms, causing the Company to seek alternative financing for the Cristal Transaction; the risk that the Cristal Transaction will not close, including by failure to obtain shareholder approval, failure to obtain any necessary financing or the failure to satisfy other closing conditions under the Cristal Transaction Agreement or by the termination of the Cristal Transaction Agreement; failure to plan and manage the Cristal Transaction effectively and efficiently; the risk that a regulatory approval that may be required for the Cristal Transaction is delayed, is not obtained or is obtained subject to conditions that are not anticipated; the risk that expected synergies will not be realized or will not be realized within the expected time period; unanticipated increases in financing and other costs, including a rise in interest rates; reduced access to unrestricted cash; compliance with our bank facility covenants; the price of our shares; general market conditions; our customers potentially reducing their demand for our products; more competitive pricing from our competitors or increased supply from our competitors; operating efficiencies and other benefits expected from the Cristal Transaction.

Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.
